## PROJECTS

**MyFlix App,** CareerFoundry                    Jul 2023 - Sep 2023
- Developed a full-stack web app, using the MERN stack for user access to movies.
- Created the server side with a well-structured REST API and built a responsive client-side app using Angular and React.
- Users can view movie details, manage accounts, and add favourites.
- Test Links:-  **Using Angular,  Using React,  API.**

**Pokedex App,** CareerFoundry                    Jun 2023
- Created and Designed a web application using HTML, CSS, JavaScript, JQuery, and Bootstrap.
- The application loads data from an external API and provides an interactive interface for users to view and explore detailed data points.
- Users can explore Pokémon details by clicking on the Pokémon's button.
- Test Links:-  **Pokedex App,  Pokedex GitHub Repo**.

**Chat  App,** CareerFoundry                    Sep 2023- Oct 2023
- Developed a mobile app using React Native to provide users with a chat interface and options for sharing images and their location.
- Utilized Expo Client App, Xcode simulator, Firestore, and Node.js to build the app.
- Test Links:-  **Chat App Github Repo**.
